Ms. Sylvia Evangelista
Alfa Kleen
2691 Saturn Street
Brea, CA 92621

Dear Ms. Evangelista:

This letter is to notify you that based upon the information available to us, your product Alfa Kleen AK-037 is acceptable for discharge into Hampton Roads Sanitation District's sewer system only under the following conditions:

1. This product may not be used to dissolve mineral and petroleum oil and greases so that these pollutants can be discharged to the sewer system.

2. The customer must be informed that the use of this product may result in higher strength wastes being discharged to the sewer system and therefore higher sewage treatment charges.

3. All products must be used in strict accordance with manufacturer's specifications.

The District in no way endorses the use of this compound or any claims made by the manufacturer. The District may, in the future, refuse to allow the discharge of this chemical should conditions warrant such actions. This statement in no way absolves the user or the manufacturer of any liability for damages arising from the use or discharge of this product to the sewage system.

Should you have any questions, please feel free to contact me at any time.

Thank you for your cooperation.

Respectfully yours,

Bernard D. Strohmeyer, Jr.
