John and Buzz,

On behalf of VFA-102, the latest F/A-18F Super Hornet squadron based at Naval Air Station Lemoore, the Strike Fighter Wing, the Naval Air Systems Command and KR Systems, Inc., I thank you very much for your timely support of our training video production efforts. Your support enabled us to professionally complete our video by including actual materials called for in Navy maintenance manuals that were not yet stocked on station. Rest assured that Alfakleen Chemical Labs will be well represented by your product appearing in our video for many years to come.

Sincerely,

Jeffrey W. Dronenburg, Sr.
